

Jim Long
Commissioner of Insurance
State Fire Marshal

TRAINING & INSPECTIONS

March 25, 2008

Mr. Mike Futrell
Lincoln County Fire Marshal
115 West Main Street
Lincolnton, NC 28092

Dear Mr. Futrell:

Thank you for the cooperation shown to our Fire Rating Inspector on his recent visit to your department. The purpose of the inspection was to verify that the Denver Fire Insurance District would qualify for homeowner insurance reduction by meeting the minimum requirements of a rated department.

The Fire and Rescue Division has completed the inspection of the main station and the sub-station and determined that the district meets or exceed the minimum requirements for a rated and certified district.

The rate classification applied to the original district is a 5/9E. The area created by extending the boundaries with the sub-station, will be a Class 5/9E. The effective date is August 1, 2008.

Again, thank you for your assistance and cooperation during the inspection of the Denver Volunteer Fire Department, Inc.. If you have any questions concerning this, please give me a call at (919) 661-5880 ext. 333.

Sincerely,

A.C. Daniels
Senior Field Inspector

ACD/sl

CC: Jay Flynn, Fire Chief
